

# Aqua-Marine\*

**All Day Strong All Day Long**

Mineral ions in water have demonstrated to have significant roles on the growth, productivity and survival of shrimps & fish. Shrimps, esp *L.vannamei* are able to absorb minerals through their gills supplementing any deficiency in diet.

**Aqua-Marine\*** presents critical minerals & ions in dispersible bioavailable forms.

**Aqua-Marine\*** is a concentrated form of essential macro & micro minerals for shrimp & fish culture.

#### Benefits:

- Corrects mineral deficiency in pond soil bottom & enhances productivity of Pond Water
- **Aqua-Marine\*** helps the prawn maintain osmotic pressure, by regulating exchange of water and solutes within the body
- **Aqua-Marine\*** supports formation of hard and soft tissue matrix & strengthens muscular control
- **Aqua-Marine\*** supplements vital minerals necessary for molting & shell formation.
- Protects from Loose Shell Syndrome (LSS) & alleviates from Tail cramping, soft shelling and incomplete molting of shrimp
- Dramatically Improves feed efficiency, growth & survival.

#### Dosage and application:

Regular Use: 10-20 kg per hectare every week;  
During Molting & Soft Shelling: 20-30 kg per hectare  
Pond Preparation And Fertilization: 30 kg per hectare.  
24 hrs before stocking Use **Aqua-Marine\*** preferably in the mornings before 10 a.m.

#### Directions for use:

Take required quantity of **Aqua-Marine\***, mix with pond water and broadcast over pond water surface evenly. Turn on the aerators for even distribution.

Use as a mineral supplement with sea water or fresh water for adjusting optimum mineral level. Repeat every week or after fresh intake of pond water. Consult your aquaculture expert for exact dosage and directions

**Presentation:** 10 Kg pouch & 25 Kg Bag.
