

SUPREME*

YOUR SAFETY SHIELD

SUPREME* is odorless, clear, generally non-irritating, has a deodorizing and detergent action.

SUPREME* is very effective against gram-positive bacteria.

Benefits:

- SUPREME* has a very rapid rate of action and is very effective for quick disinfection.
- SUPREME* leaves a residual effect, after being applied to a surface. It continues to have a killing effect for a few hours or even a day after it has dried.
- SUPREME* works best in an alkaline environment.

Composition:

Alkyldimethyl Benzyl Ammonium Chloride 50%

Use recommendations:

- SUPREME* can be used for the disinfection of cattle sheds, walls, floors & transport material, in animal livestock.
- Mix 40 - 50 ml of SUPREME* disinfectant per litre of clean water. Mix thoroughly and spray 400 ml of diluted disinfectant per square metre.

Precautions: Avoid contact with skin

Presentation: Liquid. 1 / 5 litre cans / 200 litre drums.

Target Species: Cattle, Sheep, Goat, Poultry

Category: Sanitiser
